

# CANDLESTICKS, CANDELABRUM, TABLE LAMPS AND CANDLE STANDS

Our candlesticks, candelabrum, table lamps and candle stands are beautiful accessories for any period decor. Our collection of handcrafted exact replicas include beautiful and hard to find candlesticks, a great reproduction of a snuffer stand with wick scissors and the "Wedding Band" Hog scraper candlestick, which is an exact replica of a great signed antique. Our table lamps have no equal on the market today. Our collection features an absolutely stunning reproduction of a well known original table lamp "design attributed to Thomas Jefferson", as well as an authentic replica of another beautiful original fixture.

Our hand forged iron candle stands, available in either candle burning or electrified versions, are beautifully crafted authentic reproductions of period designs. In addition to our line of full height hand forged iron candle stands, we offer two table size versions.

## *Candlesticks*

- BC-001 18th century solid brass "Queen Anne" candlestick, 7" tall with 4" base
- BC-002 18th century solid brass "Queen Anne" candlestick, 7" tall with 5" base
